sicurezza**

- Coinvolge il cliente
- Facile da installare
- Un sensore fornisce la sicurezza, la carica, audio e video
- Ogni prodotto può essere alimentato singolarmente
- Chiave utente elettronica Unique, facile da usare
- Possibilità di proteggere i prodotti ad alta potenza (fino a 12V/4A)
- Presentazione ottimale del prodotto con un supporto elegante
- Servizio e supporto professionale

Atlas™

Sicurezza attiva stand-alone in un'unica soluzione

Atlas è un elegante basamento a basso profilo che protegge i dispositivi elettronici ad alto rischio di furto e aumenta le vendite, consentendo ai clienti di provare comodamente la merce. Atlas è un sistema semplice e completo che integrerà facilmente ai vostri espositori.

Funziona con tablet, telefoni cellulari, fotocamere, dispositivi GPS e lettori MP3

Fornisce agli acquirenti la possibilità di "vivere" un'esperienza con il prodotto desiderato

La sicurezza è monitorata attraverso molteplici punti di innesto

L'Allarme interno e il lampeggiante LED indicano se il prodotto viene manomesso

La Batteria di back-up di sicurezza mantiene attiva l'alimentazione in caso di interruzione

L'Adesivo aderisce saldamente a qualsiasi superficie piana senza fori

Chiave di sicurezza programmabile

Servizio e supporto professionale

EVOLVE P10/P20

Protezione di 1° classe

Le antenne della serie P sono belle da vedere e hanno sostegni robusti, progettati per resistere agli ambienti più difficili del punto vendita.

- Il design attraente e moderno permette alle antenne di integrarsi facilmente nello stile del negozio
- Adatte alla maggior parte degli ambienti di vendita
- I pannelli laterali di metallo spazzolato garantiscono una durata maggiore e migliorano l'estetica
- Integrazione opzionale dell'unità EVOLVE VisiPlus™ per lo Smart Alarm Management ed il conta-persone
- Compatibili con tutte le soluzioni EAS di Checkpoint e con le etichette e gli accessori RF.

PLUS

Le antenne Checkpoint Systems di 3^a Generazione sono il futuro. Le incomparabili ed avanzate caratteristiche di questa antenna consentono ai retailer di proteggere i loro prodotti ottenendo il massimo dei benefici.

La robustezza, l'estetica nuova e piacevole, la resistenza agli urti e ai liquidi, la compatibilità con l'RFID, la gamma di modelli e colori sono le caratteristiche di questa nuova linea.

Famiglia 3G

Tecnologia.

Nuova Radio Frequenza Digitale 8.2 MHz.

Caratteristiche della struttura.

Provata resistenza agli urti.
